

My name is **Oscar Sheikh**, I was born in 1987 in Hong Kong. I am a self taught 3D artist seeking for opportunity to work in the animation/VFX industry.

I seriously loved drawing cartoon characters in my childhood, and I spend much time on watching "Tom and Jerry" and Mickey. After a Decade of time, I realized my true passion is about visual arts, so I entered the School of Creative Media in City University of Hong Kong where I earned my BA and started to study animation in my second year, and I started to learn as much as I can in my free time.

I just finished my college last year and is now seeking for chance to get into the industry. I like life drawing, taking photos and go biking when I am free.

Highlights

A quick learner, and I enjoy learning as much as I can.

A good problem solver and I have good eyes on details and shapes.

I am very very hard working, as I enjoy it.
